

STAT A PALOOZA 2026

STAT A PALOOZA 2026, an exhibition organized by the **Department of Statistics, University of Calicut**, was conducted in conjunction with **Sasthrayan 2026**, the University of Calicut's science exhibition initiative, from **29–31 January 2026**. The exhibition was designed to present the fascinating world of statistics through engaging, interactive, and visually appealing activities, demonstrating the relevance of statistical thinking in everyday life and across diverse fields. The exhibits included **live statistical demonstrations** such as the Galton Board and sampling demonstrations, **data visualization displays**, **interactive statistical models**, and representations of **real-life probability distributions**. Visitors were also introduced to statistics through **games and puzzles**, a **Statistical Horror House**, and thematic exhibits such as **Cricket through Statistics**, **Journey Through the History of Statistics** and **Statistics in Daily Life**. Through these innovative exhibits, STAT A PALOOZA 2026 provided students, teachers, and visitors with an opportunity to experience statistics beyond textbooks, emphasizing its practical applications, analytical power, and importance in understanding real-world phenomena.
